GENERAL EXHIBITION TERMS AND CONDITIONS

Article I
ORGANIZER

agrokomplex NÁRODNÉ VÝSTAVISKO, state enterprise,
Výstavná 4, 949 01 Nitra (hereinafter reffered to as AX)
Place of event: Nitra, Agrokomplex Exhibition Grounds

Article II
ALLOCATION OF EXHIBITION SPACE

1. The exhibitor shall send the application form to the address of AX.
2. The application for participation sent to AX is binding for the exhibitor. AX shall decide on the acceptance, reduction or rejection of the application, taking into account the exhibitor's requirements to the greatest possible extent.
3. After the exhibition space has been allocated, the exhibitor is obliged, on the basis of the received invoice, to pay the full invoiced amount and is not entitled to cancel the application. Failure to meet the payment deadline entitles AX to refuse participation in the fair.
4. The exhibitor undertakes to fulfil towards AX all obligations arising from his participation and from the participation of his co-exhibitors, as well as those of the company authorized by him for stand construction and transport. Any changes are subject to approval by AX.
5. AX places exhibitors according to exhibition commodities. In case the exhibitor does not adhere to the commodity stated in the application form, AX reserves the right to exclude the exhibitor from the fair without financial compensation.
6. The exhibitor is not allowed to sublet the allocated exhibition space to a third party. Exceptions apply to exhibitors organizing collective participation.

Article III
PAYMENT TERMS

1. In the event of cancellation of participation by the exhibitor, the registration fee, rental fee for space, and implementation costs already incurred by AX by the date of cancellation will not be refunded.
2. If the exhibitor cancels participation before paying the invoice, AX may claim a contractual penalty as follows:
   a) 50% of the rental fee for the space, if participation is cancelled more than 4 weeks before the start of the fair.
   b) 90% of the rental fee for the space, the cost of stand construction, and any other ordered services, if participation is cancelled within 4 weeks before the start of the fair.
3. If the exhibitor does not cancel participation in writing and does not attend the exhibition, he shall pay a contractual penalty of 100% of the rental fee, the cost of stand construction, and any other ordered services.
4. The exhibitor undertakes to pay the invoice by the due date. In the event of non-payment, AX reserves the right to exclude the exhibitor from the fair without financial compensation.

Article IV
EXHIBITS

1. An exhibit is understood to mean a product, goods, or rights to immovable assets that are duly registered and exhibited in the area designated by AX and which correspond to the fair's nomenclature.
2. The exhibitor must immediately notify AX of any changes to the exhibits.
3. The import and removal of exhibits shall be governed by AX's instructions. AX will charge handling and storage fees for exhibits not removed by the end of the dismantling period and shall not be liable for their loss or damage.
4. The receipt of exhibits is the sole responsibility of the exhibitor. If the exhibitor or his representative is not present, the exhibits will be unloaded at the allocated exhibition space at the exhibitor's risk. It is not permitted to remove exhibits during the event.

Article V
STAND CONSTRUCTION AND INSTALLATION OF EXHIBITS

1. The dates for assembly, dismantling, and operation are determined by AX. Technical and safety regulations issued by AX are binding for the exhibitor during stand construction and exhibit demonstrations.
2. Wall hydrants, fire detectors, extinguishers, and other safety equipment must not be obstructed. Structural modifications to the halls or outdoor areas are prohibited. All work related to the adjustment of such areas must be ordered from AX.
3. The maximum height of stands is 3 meters indoors and 8 meters outdoors. Any deviation is subject to AX's approval.
4. The exhibitor must submit to AX for approval, within the agreed deadline prior to construction, the technical design and electrical design of the stand in two copies. Construction may commence only after AX's approval. The architectural design and operation of the stand must not disturb neighbouring stands.
5. Water, electrical, and telecommunication connections must be ordered from AX.
6. The exhibitor is responsible for all equipment borrowed from AX and must return it undamaged after the fair.
7. The exhibitor must compensate AX for any damage caused to exhibition areas or equipment.
8. The document "Rules for Assembly and Dismantling of Stands at AX Exhibition Grounds" forms an integral part of these general exhibition terms and conditions.

Article VI
ACOUSTIC ADVERTISING

1. The noise level at the exhibitor's stand must not exceed 75 dB. If this limit is not respected, the organizer may disconnect the stand from the electrical supply.

Article VII
PROMOTION AND ADVERTISING

1. The exhibitor may promote his products only within his own stand.
2. All promotional materials used outside the exhibitor's stand must be ordered from AX.
3. The official catalogue will be prepared from materials provided by the exhibitors.
4. During exhibitions organized by AX, any form of political promotion by the exhibitor is strictly prohibited. For the purposes of this provision, political promotion means, in particular:
   - Presentation of political parties,
   - Presentation of civic initiatives with political objectives,
   - Collection of signatures for the formation or support of political parties,
   - Display of political symbols, slogans, or banners.
5. In case of violation of paragraph 4 of this article, AX is entitled to immediately exclude the exhibitor from the exhibition without refund of paid fees.

Article VIII
INSURANCE

1. AX shall not be liable to the exhibitor or his co-exhibitors for any loss, theft, destruction, or damage to exhibits, equipment, stand fittings, goods, packaging, or packing materials, regardless of whether such loss or damage occurred before, during, or after the fair or any other event organized by AX. The exhibitor shall obtain insurance for this purpose at his own discretion.
2. **Liability insurance for damages caused by one's own activities:** Exhibitors constructing their own stands and companies carrying out such construction are required to have valid liability insurance during assembly and dismantling. Proof of such insurance must be provided upon request. If this condition is not met or cannot be proven, AX reserves the right to deny access to the exhibition premises until the matter is rectified.

Article IX
TECHNICAL AND SAFETY REGULATIONS IN FIRE PROTECTION AND PERSONAL DATA PROTECTION

1. All exhibitors whose stand designs are prepared outside the AX design department must submit the project documentation to AX prior to implementation for review by AX's fire technician.
2. Smoking is prohibited in all pavilions during setup, exhibition, and dismantling periods. Exceptions are designated smoking areas equipped with ashtrays and without any flammable materials. No flammable substances, explosives, acids, or poisons may be stored in the halls. Exceptions require AX's permission. All materials used for stand construction must be non-flammable or fireproofed. The types and quantities of these materials must be reported together with the stand project.
   a) In case of violation of the smoking ban by an employee of a contractor or exhibitor in non-designated areas, a contractual penalty of €15 will be imposed.
   b) In case of violation of the smoking ban by such persons in areas with increased fire or explosion risk, a contractual penalty of €30 will be imposed.
3. All applicable fire safety regulations must be observed.
4. The exhibitor acknowledges that information regarding personal data processing is available on the organizer's website: www.agrokomplex.sk/gdpr

Article X
FINAL PROVISIONS

1. In the event that AX, due to force majeure (any extraordinary, unforeseeable, unavoidable, and unintentional event—e.g., government order or natural disaster), cannot start or must terminate the exhibition, all unfulfilled obligations of AX towards the lessee under these General Exhibition Terms and Conditions shall cease from the moment of such event. If AX has already provided performance to the exhibitor, the exhibitor shall have no right to reimbursement or compensation for any damages arising from the force majeure event.
2. The exhibitor may file a complaint regarding works and services provided by AX to the responsible employee in writing without undue delay, no later than one day before the end of the fair; otherwise, the right shall expire.
3. Unless otherwise specified, AX is entitled to exclude an exhibitor from further participation in the fair or accompanying events in case of violation of any provision of these terms. In such cases, the exhibitor has no right to compensation for any damages or reimbursement of any paid invoices.
